

READING YOUR EXPLANATION OF BENEFITS (EOB)

You may receive an EOB from your health plan after your visit with the provider. It will show you the total charges for your visit and how much you and your health plan owe. An EOB is NOT A BILL. You can also use it to track how you and your family use your coverage. You may get a separate bill from the provider.

Here's an example of an Explanation of Benefits.

What the EOB is telling you

1. Phone Numbers

You can call your health plan if you have questions about finding a provider or what your coverage includes.

2. Payee

Payee is the person who will receive any reimbursement for over-paying the claim.

Claim Detail

3. **Service Description** shows the health services you received, like a medical visit, lab test, or screening.

4. **Provider Charges** is the amount your provider bills for your visit.

5. **Allowed Charges** is the amount your provider will be paid; this may not be the same as the Provider Charges.

What your Provider Can Charge You — Your Responsibility

6. **Paid by Insurer** is the amount your health plan will pay to your provider.

7. **What You Owe** is the amount you owe after your insurer has paid everything else. You may have already paid part of this amount. Payments made directly to your provider may not be subtracted from this amount.

8. **Remark Code** is a note from the health plan that explains more about the costs, charges, and paid amounts for your visit.

Pay your bills

Pay your bills and keep all paperwork in a safe place. Some providers will not see you if you have unpaid bills. You may be able to pay your bills online or over the phone. This can vary depending on your health plan and coverage.

Appeals

If you disagree with a coverage or payment decision by your health plan, you may be able to appeal. If you think you were charged for tests or services your coverage should pay for, keep the bill. Call your health plan right away. Health plans have call and support centers to help.
